PHOENIX CONTACT

Lifetime Warranty

At Phoenix Contact Australia New Zealand, we understand the critical role our products play in your operations. That's why we offer the industry's most comprehensive warranty – a Lifetime Guarantee on our products.

Your Advantages

Minimised Downtime

With the assurance of our Lifetime Warranty, you can focus on core business operations without worrying about unexpected product failures, confident your systems will perform when needed.

Reduced Total Cost of Ownership

Eliminate the recurring expense of replacing failing components. Our Lifetime Warranty minimises your replacement costs and maintenance needs, maximising your return on investment.

Enhanced Investment Value

Get the most out of your investment with a product built to last a lifetime.

Superior Quality

We use only the highest-grade materials and rigorous manufacturing processes to ensure our products deliver exceptional performance throughout their lifespan.

Superior Performance

Experience outstanding product performance that keeps your operations running smoothly and efficiently.

Increased Productivity

Our reliable solutions keep your systems up and running, optimising production efficiency and maximising your bottom line.

Unmatched Reliability

Our rigorous design and manufacturing processes ensure our products are built to endure even the most demanding environments.

Reduced Risk

Eliminate the worry of product failure with a lifetime guarantee.

> **The peace of mind that comes with Phoenix Contact's Lifetime Warranty is invaluable. It allows us to focus on our core operations without worrying about product failures.**

Lifetime Warranty

Choose Phoenix Contact with confidence

Phoenix Contact engineers durable and reliable products for your control cabinet. A dedication to quality and innovation, united with our strong commitment to provide customers peace of mind, form the foundation of this exclusive Phoenix Contact warranty program.

For customers participating in our Complete Cabinet Confidence Lifetime Warranty (LW) program, Phoenix Contact Australia will warrant many of our products to be free from defects in workmanship and materials for the lifetime of the product. Registration is required, and certain restrictions apply. Improperly applied or installed products may void warranty. See the complete terms and conditions for full details.

Our goal is to be your most trusted partner in building your control cabinet. We believe that achieving peace of mind should be easy!

Simple Three Step Registration

To assure your Phoenix Contact products are covered under our exclusive Lifetime Warranty, follow these steps:

Step 1: Submit your registration (www.phoenixcontact.com/en-au/au-lifetime-warranty).

Step 2: Select and install Phoenix Contact products in accordance with our recommendations.

Step 3: Make sure all electronics are powered and protected with appropriate Phoenix Contact power supplies and surge protection.

For participation in the Phoenix Contact Complete Cabinet Confidence Lifetime Warranty (LW) program, customer registration is required. Certain restrictions apply. Coverage of products in the program is limited to Phoenix Contact products sold in Australia. Improperly applied or installed products may void warranty.

Establishment of 4 Core business

Power Reliability

The heart of your installation, all control systems are dependent on being properly powered and protected. Surge and circuit protection, UPS backup, and redundant power solutions are the foundation on which reliable control systems should be built.

Cabinet Efficiency

Efficiency in cabinet building begins with Phoenix Contact's modular and scalable solutions. From design to installation, our innovative products simplify processes, shorten assembly times, and ensure consistent quality across every project.

Automation

From single components to fully integrated systems, Phoenix Contact delivers reliable solutions powered by cutting-edge technologies in industrial networking, automation, safety, switching, signal conversion, and motor control, driving innovation and high performance across every application.

Connectivity

Discover our wide range of new products for the transmission of signals, data, and power. Reliable and cost effective solutions including Circular Connectors, Data ports, Connectors for Energy Storage and many more.

Discover our four functional areas

Power Reliability

Reliable power is the foundation of every control system.

Even the most advanced applications are vulnerable to outages caused by power disturbances. Proper power supply and protection are critical—combining surge protection, circuit protection, quality power supplies, UPS backup, and redundancy to ensure system stability and performance.

Features:

- End-to-End Power System Coverage
- Continuous Monitoring & Predictive Maintenance
- Protection Against Power Disturbances & Faults

Cabinet Efficiency

There is enormous potential for greater efficiency in control cabinet building.

Every single process step, from engineering to the finished control cabinet, offers the opportunity to improve processes and save time and costs. Discover our modular and scalable solutions for efficient control cabinet building.

Features:

- Data Consistency
- Scalability and modularity
- Technologically leading products

Automation

Reliable automation is the driving force behind efficient, connected, and scalable industrial operations.

As systems evolve to become more intelligent and data-driven, having a fully integrated automation platform is essential. A comprehensive portfolio—combining control systems, I/O, industrial networking, relays, safety solutions, motor starters, and signal conditioning—ensures seamless operation from field devices to higher-level systems.

Features:

- Simplified engineering, fast commissioning, and a cohesive system architecture
- Reliable machine control with built-in protection
- Reliable operation across diverse applications

Connectivity

Ensure seamless transmission of signals, data, and power in the control cabinet and beyond.

The Phoenix Contact connectivity portfolio combines reliable industrial connectors, advanced data interfaces, and innovative technologies to support high-performance and future-proof systems. From factory automation to energy applications, the solutions are designed for flexibility, efficiency, and long-term reliability.

Features:

- Reliable, scalable communication from field to cloud
- Flexible solutions for diverse applications
- Supporting compact device designs, high cabling density, and evolving system requirements

Warranty Coverage:

Registration is required, and certain restrictions apply.* Improperly applied or installed products may void warranty.
See the complete terms and conditions for full details. https://www.phoenixcontact.com/en-au/au-lifetime-warranty

General Manager – Power Reliability, Azzo

Ongoing communication with customers and partners worldwide

Phoenix Contact is a global, market leader based in Germany.

Our group is known for its future-oriented components, systems, and solutions in the fields of electrical engineering, electronics, and automation.

With a global network reaching across more than 100 countries and 22,000 employees, we can stay in close contact with our customers, something we believe is essential to success. The wide variety of our innovative products makes it easy for our customers to find future-oriented solutions for multiple applications and industries. We especially focus on the fields of energy, infrastructure, process, and factory automation.
