G3 UNIVERSAL GRIPS

HEAVY EQUIPMENT & MATERIAL HANDLING GRIPS

The G3 Universal Grips can be customized for top-of-theline machines requiring high switch content, or to provide only basic control functions on lower tier units. The grips are designed to be panel mounted as a fixed control grip or mounted on an OTTO JH, JHL or JHM joystick.

The OTTO G3 Universal Grips have a modular design and were developed for use with OTTO's standard pushbuttons, rockers, toggles, Hall effect switches and the JH, JHL and JHM series Hall effect joysticks. The G3 Grips are easily customized with multiple switch configurations, quickly and without tooling charges.

Features:

- Compatible with the OTTO JH , JHL and JHM series Hall effect Joysticks
- Variety of sizes/shapes available

 \cap

- Accommodates a full line of pushbutton, rocker, toggle, HP Hall effect & HPL proportional output series of switches
- Various mounting & termination options available
- Includes mounting adapter with boot ring (where applicable)
- Modular faceplate design reduces the need for tooling charges

G3-CK Universal Grip

Keypad and 10-Button

G3 Contour Grip Available in Left-hand and Right-hand Options

with Backlighted 8-Button Faceplate

Side Keypad

Custom Terminations Available

G3-B UNIVERSAL GRIPS
