## **DC fuse disconnectors Ex9FP**

- DC fuse disconnectors
- Suitable for PV systems
- Rated short-circuit breaking capacity I<sub>cn</sub> with appropriate fuse-link up to 33 kA
- Rated current up to 30 A
- Rated operational voltage 1000 V DC
- Optical tripping indicator
- Fuse-links of size 10 x 38 mm
- 1 and 2-pole variants
- Utilization category DC-20B

Fuse disconnectors Ex9FP for photovoltaic string protection against short circuit and overload. Suitable for cylindrical fuse-links of size 10 x 38 mm.

LED optical tripping indicator on the front side is signaling the fuse fault.

### DC fuse disconnectors

#### **General parameters**

For protecting against overload and short-circuit current in direct current and PV applications

Modular design, width 1 MU per pole

Fuse fault indicator

Fuse disconnector cannot be operated by unskilled person (EN 60947-3)

#### **Electrical parameters**

| Electrical parametere                         |                        |
|---|------------------------|
| Tested according to                           | IEC / EN 60947-3       |
| Rated operating voltage ${\rm U_{e}}$         | 1000 V DC              |
| Rated current I <sub>e</sub> DC-20B 1000 V DC | up to 30 A             |
| Number of poles                               | 1, 2                   |
| Rated insulation voltage U <sub>i</sub>       | 1000 V DC              |
| Rated impulse withstand voltage $U_{_{imp}}$  | 6 kV                   |
| Utilization category                          | DC-20B                 |
| Rated short-time breaking capacity            | 33 kA (30 kA from 20A) |
| Rated conditional short-circuit current       | 20 kA                  |
| Maximum power loss of fuse link               | 4 W                    |
|   |                        |

#### Mechanical parameters

| · · · · · · · · · · · · · · · · · · · |   |
|---------------------------------------|---|
| Device width                          | 18 mm (per pole)                            |
| Device height                         | 83 mm (89 mm including rail clip)           |
| Frame size                            | 45 mm                                       |
| Mounting                              | easy fastening onto 35 mm device rail (DIN) |
| Degree of protection                  | IP20  |
| Terminal capacity                     | 2.5 — 10 mm <sup>2</sup>                    |
| Ambient temperature                   | -30 — +70 °C                                |
| Altitude                              | ≤ 2000 m                                    |
| Relative humidity                     | ≤ 95 %                                      |
| Resistance to humidity and heat       | class 2                                     |
| Pollution degree                      | 3   |
| Installation class                    | III   |
| Fuse dimension                        | 10 x 38 mm                                  |
| Weight                                | 0.07 kg per pole                            |
