

Data Sheet for Article: MG954006-A

### Current transformer 60/5A 30x10, class 3

Version Dry type transformer, air insulation, Input current 60A, IP Rating IP20, Product category Normal installation (DIN EN 61869-2), Class 3

#### **Technical Data**

| Note  | The converter is not allowed to be operated with open secondary side, |
|---|---|
|   | because this leads to a dangerous overvoltage at the secondary side   |
|   | and overheating of the converter!!! (EN60044-1/A2)                    |
|   | Therefore, when disconnecting the measuring device, meter or power    |
|   | analyzer, short-circuit the secondary side.                           |
| Intended use                                  | for cables up to diameter 27mm  |
|   | for copper bars up to 30 x 10mm                                       |
| Product standard                              | EN 61869-2  |
| Cut-out size (mm)                             | 30x10   |
| Specifications                                |   |
| Rated current primary side Ipr (A)            | 60  |
| Rated frequency (Hz)                          | 50  |
| Frequency range                               | 47 - 63Hz   |
| Thermal rated continuous current according to | EN60044-1   |
| Short-time current Ith                        | < 60lpr   |
| Rated dynamic current Idyn                    | 2.51th  |
| Safety factor                                 | ≤ 5   |
| Rated current secondary side Isr              | 5A  |
